

STEM-Tactic Summer Science and Building Camp
Monday, July 16-Friday, July 20
9:00-4:00
University Elementary School

Come spend a full day with Science expert Mr. Moser and the Bricks 4 Kidz staff as we build, create, and work on incredible science experiments and build and code fun new motorized Bricks 4 Kidz LEGO models. This camp is all about Science, Technology, Engineering and Math.

Students will spend half of the day learning and building new and experimental LEGO motorized models while learning the science behind the models. Students will build, CODE, and work as a team to accomplish tasks with their LEGO models.

The second half of the day will be in the UES Science Lab where students will be given the opportunity to learn about Science, Technology, Engineering and Math through the interactive and hands-on science experiments. Your kids will become Master Builders and Super Scientist for the summer.

Between the two camps, students will have time for lunch, recess, and games. Students must register for the camp in advance.

University Elementary Students can get a discount code from the school office for this camp.

This camp is for students who will be entering 1st-6th grade in the fall. You must have completed Kindergarten for this camp. This is a full day camp from 9-4. Students should bring a lunch and a snack.

Register TODAY at:
